Subject: RE: How to handle Request for Exemption from 40 CFR 60 EEEE (OSWI)

Hi Guy- I asked the appropriate people and how to hear back by Tuesday.

Subject: How to handle Request for Exemption from 40 CFR 60 EEEE (OSWI)

Lisa:

We briefly talked awhile back about a Waste to Energy pyrolysis plant that wants to seek an exemption from EEEE. They have since worked on a proposed exemption request but are unsure of the proper routing for the request – and neither are we!

Although we are USEPA's designated authority for EEEE, the authority to exempt a facility from an applicable requirement rests solely with USEPA: Should the request go to you (Region IX) or to USEPA Headquarters? And should it go through us or straight to R9/HQ? However you prefer to handle it is fine with us.

I have included a copy of their proposal summary if you care to read it... It's fairly well written, despite some creative parsing of definitions!

Thanks again for all of your help.

Sincerely,

Guy Smith
